

Outdoor integrated cabinet

efficient

Stabilize

Convenient and convenient

Manufactured with lightweight and strong materials to adapt to a variety of environments in outdoor activities.
The cabinet is usually equipped with a temperature control system to ensure the preservation performance of stored materials in harsh environments.

215KWh Outdoor Converged Cabinet System Argument

item	argument
Cell capacity	280Ah
Group mode	1P165*15
Nominal voltage	768V
Operating voltage range	600V-864V
Nominal electric quantity	600V-864V
Standard charge and discharge ratio	0.5C
Maximum continuous charge and discharge ratio	1C
Charging temperature	0~55°C
Discharge temperature	-20~55°C
Storage temperature	Less than one month: -20°C ~ +45°C, 90%RH Max More than three months: 0°C ~ +35°C, 90%RH Max
Heat dissipation mode	Air cooling
Fire protection system	Gas fire (heptafluoropropane)+ water fire
weight	2.6T
Size	1600mm*1100mm*2400mm
Class of protection	IP55
